

8 HORSEPOWER AIR BLOWER

Thank you for selecting this quality Griot's Garage product. The **8 HORSEPOWER AIR BLOWER** is designed to help you remove water from hard-to-dry areas with a powerful stream of air. Enjoy the best!

USEFUL INSTRUCTIONS

1. Attach three-conductor extension cord to power supply. Insert male plug into electrical outlet.
2. Fit the 30 ft. by 1 1/2" hose over the steel tube protruding from the front end cap of the power unit. The adjustable clamp will keep the hose on the blower.
3. Start the blower by pushing the toggle the switches from down to up.
4. The air velocity can be controlled by attaching or removing the neoprene nozzle or other attachments.

To use as an inflater, select the small blower nozzle attachment. When inflating air mattresses, boats, or rafts with large valves, place the nozzle into or against valve until inflatable is filled.

DISCLAIMER

Griot's Garage is not responsible for any misuse of (or resulting injury or damage incurred to any person or object related to) the **8 HORSEPOWER AIR BLOWER**.
